

PROVIDING OPPORTUNITIES TODAY FOR YOUR CHILD'S TOMORROW

### **BOOSTER DESCRIPTIONS**

All booster courses are delivered from 9:00am-12:00pm daily. The courses are designed for students who have been introduced to skills but need to master them or to give gifted students a head start on new skills that they are ready to explore. These courses will provide more time for some students and opportunities to move ahead for others when they are ready. All courses are offered because they are pivotal to further academic growth for all children.

### **GEOMETRY AND MEASUREMENT**

Geometry and Measurement is twenty-four hours of focused instruction devoted entirely to geometry and measurement. This is equivalent to five weeks of mathematics instruction in a typical classroom setting. Geometry and Measurement are typically one of the biggest areas of concern on formal assessments. \$600.00.

### **MULTIPLICATION MASTERY**

Multiplication Mastery is twenty-four hours of focused instruction devoted entirely to mastering multiplication. This is equivalent to five weeks of mathematics instruction in a traditional classroom setting. Multiplication is the area that is the first mathematical challenge for many students. Multiplication is also the essential foundation for division, fractions and algebra. \$600.00.

### **NON-READER TO READER**

Non-Reader to Reader is designed for students who have the pre-requisites for reading but who have not yet begun to read successfully. This is typically but not always a kindergarten or first grade student. Non-Reader to Reader is forty-five hours of reading instruction and equivalent to six weeks in a traditional classroom setting. \$850.00.
